Brian,

Yes, the drone pictures were great! Also, thanks for submitting the field report on Tuesday, which was one day earlier than expected.

No schedule yet on the upcoming field work – will let you know when I have it & scope.

Thanks,

Gary Miller

Subject: San Jacinto Oversight Activities

Hi Gary,

I heard about Duane's drone use and saw some of the photos. That thing seems to worked great for field work. I also wanted to follow up on a couple of items.

1. Was the Field Activity Report submitted earlier in the week what you were expecting?
2. Do you have any schedule on when you will need us to provide oversight and what our role will be with respect to types of sampling activities?

Thanks,

Brian Yost, CHMM
